

Data-center connection source register

Pennsylvania campaign contribution research | September 15, 2026

Research index, not a copy of the original source documents

This register summarizes evidence supporting reviewed organization connections and the HB 952 Yea-voter categories. Use the clickable source links to inspect the original material. The ZIP includes available original PDFs, including the supplied House and Senate roll calls. Employer and PAC-name associations require separate donor identification checks. Lawmaker matches use reviewed contributor and campaign-committee names only. A vote connection does not establish why a contribution was made or the recipient candidate's position. Evidence can postdate a donation. This is not an exhaustive list of every connected donor, and it makes no claim about wrongdoing.

Amazon / AWS

Operator | Pennsylvania | Evidence date: Undated

Amazon describes its proposed data-center campus in Falls Township and collaboration with NorthPoint Development.

Original source:

[Falls Township Innovation Campus](#)

NorthPoint Development

Developer / land | Pennsylvania | Evidence date: Undated

Amazon identifies NorthPoint Development as its partner in local planning and project information for the Falls Township campus.

Original source:

[Falls Township Innovation Campus](#)

Talen announced a power purchase agreement to supply Amazon data-center operations from Susquehanna.

Original source:

[Talen Energy Expands Nuclear Energy Relationship with Amazon](#)

PPL

Power supplier | Pennsylvania | Evidence date: 2025-07-15

PPL and Blackstone announced a joint venture to build gas-fired generation for data centers.

Original source:

[PPL and Blackstone generation joint venture](#)

Blackstone

Investor / owner | Pennsylvania | Evidence date: 2025-07-15

Blackstone identifies its backing of data-center operator QTS and Pennsylvania land acquisitions and investment.

Original source:

[Blackstone Pennsylvania digital and energy investment](#)

QTS

Operator / land | Pennsylvania | Evidence date: 2025-07-15

Blackstone states that QTS secured northeastern Pennsylvania land for data-center development.

Original source:

[Blackstone Pennsylvania digital and energy investment](#)

Constellation Energy

Power supplier | Pennsylvania / PJM | Evidence date: 2024-09-20

Constellation announced a 20-year Microsoft power purchase agreement supporting the restart of Three Mile Island Unit 1.

Original source:

[Crane Clean Energy Center announcement](#)

Microsoft

Operator | Pennsylvania / PJM | Evidence date: 2024-09-20

Microsoft agreed to purchase output from the planned restart of Three Mile Island Unit 1 to match data-center electricity consumption in PJM.

Original source:

[Crane Clean Energy Center announcement](#)

Brookfield

Investor / power supplier | Pennsylvania / PJM | Evidence date: 2025-07-15

Brookfield and Google announced power agreements involving Pennsylvania hydroelectric facilities to support Google operations in PJM.

Original source:

[Brookfield and Google hydro agreement](#)

Google / Alphabet

Operator | Pennsylvania / PJM | Evidence date: 2025-07-15

Brookfield and Google announced power agreements involving Pennsylvania hydroelectric facilities to support Google operations in PJM.

Original source:

[Brookfield and Google hydro agreement](#)

IBEW International

Union | US / international | Evidence date: 2025-05-01

IBEW describes its members performing data-center electrical construction. National-union evidence does not establish a particular local or member worked on a project.

Original source:

[The Data Center Surge](#)

IBEW Local 143

Union | Pennsylvania | Evidence date: 2025-07-25

Local 143 presents proposed regional data centers as an opportunity for union construction work. This documents public support, not a signed construction award.

Original source:

[Central Pennsylvania data-center projects](#)

IBEW Local 163

Union | Pennsylvania | Evidence date: Undated

The local job-call page lists electrical work at Salem Township Data Center Building 101.

Original source:

[IBEW 163 job calls](#)

United Association

Union | US / international | Evidence date: Undated

The United Association describes data-center construction as work for its membership and advocates for the sector.

Original source:

[United Association: Data Centers](#)

Suffolk describes its data-center construction business and lists projects.

Original source:

[Suffolk mission-critical construction](#)

Comcast

Network supplier | US / international | Evidence date: Undated

Comcast offers data-center connectivity services. This is a supplier connection, not evidence of owning a hyperscale campus.

Original source:

[Comcast Business connectivity](#)

Verizon

Network supplier | US / international | Evidence date: 2025

Verizon describes building high-capacity fiber pathways connecting AWS data centers.

Original source:

[Verizon and AWS fiber agreement](#)

PNC

Finance / enterprise operator | US / international | Evidence date: Undated

PNC lists data centers and cloud services among the sectors covered by its technology banking business.

Original source:

[PNC technology finance](#)

Iron Mountain

Operator | Pennsylvania | Evidence date: Undated

Iron Mountain describes its underground colocation data center in Boyers, Pennsylvania.

Original source:

[Western Pennsylvania data center](#)

IBM

Operator | US / international | Evidence date: Undated

IBM describes its global network of cloud data centers.

Original source:

[IBM Cloud global data centers](#)

Equinix

Operator | Pennsylvania | Evidence date: Undated

Equinix offers Philadelphia colocation and data-center interconnection services.

Original source:

[Equinix Philadelphia data centers](#)

UGI

Power supplier / land | Pennsylvania | Evidence date: 2026-05-06

UGI describes a property sale and dedicated gas infrastructure supporting a proposed Pennsylvania data-center campus.

Original source:

[UGI and Prime Data Centers partnership](#)

EQT Corporation (natural gas)

Power supplier | US | Evidence date: 2024

EQT describes its natural-gas business positioning and supply agreements supporting data-center power demand. Distinct from the unrelated investment firm EQT.

Original source:

[EQT first-quarter 2024 presentation](#)

EQT investment group

Investor | US / international | Evidence date: 2024-01-05

EQT Infrastructure announced a partnership with EdgeConneX to build and operate hyperscale data centers. Distinct from EQT Corporation, the gas company.

Original source:

[EQT and EdgeConneX partnership](#)

Operating Engineers Local 542
